

04-18-2011 Mike keeps winning in 2011 season

- Perfect weekend at Thunderhill Raceway, the second round of the 2011 NASA West Coast Region Championship for Michael Guasch, sweeping wins in both races during last weekend's races.

Coming of a spectacular win in an LMPC Prototype car with Team Genoa Racing at the 59th Annual Mobile 1, 12 Hours of Sebring earlier this year, Mike has not forgotten how to driver or better win in an open wheel car.

After winning in Sebring one of the most prestigious endurance races in the world in his first start in the American Le Mans series, Mike had another perfect weekend, sweeping both race wins in last weekend's NASA West Coast Region Championship driving the # 91 Molecule Labs Star Mazda car.

This was the same car Mike won the National Star Mazda Masters class championship in 2009.

This just demonstrates Mike's all around talent being competitive and successful in Open Wheel, Prototype Sportscar and GT racing.

Mike is now heading this week to England for the start of the 2011 British GT Championship opener at Oulton Park with team United Autosports driving yet another style of car with the Audi R8 LMS sports car. Mike will be joined there by his new 2011 teammate Matt Bell in their bet for the 2011 British GT Championship.

Matt Bell (GB) and Michael Guasch (USA), who raced in the FIA series with United Autosports last year albeit in different cars, team together for the first time. His season starts with the first round at Oulton Park, April 25<sup>th</sup> 2011.
